

Architectural

ACCESS DOOR

The Babcock-Davis Architectural Access Door is built with the architect in mind. Constructed with an industry-standard steel door, the design further improves on strength and aesthetics.

FEATURES

ANTI-FLEX FRAME Screws are inserted through our patent-pending Easy Install Tabs, firmly fitting the door to the wall without flexing the frame.

PAINLESS INSTALLATION When mounting screws are not required, quickly and easily install your new panel by bending our Easy Install Tabs over the drywall.

OPTIONAL STAINLESS STEEL The spot free design on the face of the door gives an aesthetically pleasing appearance.
