Lume-A-Lite™

DOOR PRODUCTS

Lume-A-Lite Door products are made of glow-in-the-dark photoluminescent resin or acrylic. Available in a four inch die cut decal, or one inch rolls; the door products are designed to indicate where the door frame and latch are located in the event of a power outage or a smoke filled room.

FEATURES

BRIGHTNESS Materials are photoluminescent colored, bright and require no electrical charge. High-quality strips feature integrated dye throughout the material to exceed codes for brightness.

DURABILITY The Marking Strip is long-lasting and tamper resistant. It is designed with materials that last, like the foam back adhesive and 53 mil resin.

INSTALLATION EASE Labor saving features like peel-and-stick adhesives require no special tools and no special training. Installation and maintenance manuals are available at www.babcockdavis.com.
