RE: Sustainability Statement

Babcock-Davis certifies and provides the following information for use in achieving LEED v5 credit for specification of the following:

Product: envIRONtread II[®] Rigid Grilles

Models: BGV34, BGV12

Final Assembly Location: Minneapolis, MN

LEED v5 Credit Contributions

Category: Materials and Resources

Credit: MRc4 – Building Product Selection and Procurement (5 Points Possible)

Babcock-Davis has demonstrated achievement in one criteria area for envIRONtread II[®] Rigid Grilles:

Circular Economy: envIRONtread II Rigid Grilles are constructed of 35.7% Aluminum Alloy (40-80% pre-consumer recycled content; 10-30% post-consumer recycled content); and 8.6% Steel Alloy (default 25% post-consumer recycled content; however, may include up to 95% total recycled content) [Score: Up to 1]

Category: Indoor Environmental Quality

Prereq: EQp2 – Fundamental Air Quality (Requirement)

Babcock-Davis envIRONtread II[®] Rigid Grilles can provide the permanent entryway system required by this prerequisite, in order to capture dirt and particulates entering the building from primary entrances.
