RE: Sustainability Statement

Babcock-Davis certifies and provides the following information for use in achieving LEED v5 credit for specification of the following:

Product: Aluminum Retrofit Roof Hatch

Models: BRHRA

Final Assembly Location: Minneapolis, MN

LEED v5 Credit Contributions

Category: Materials and Resources

Credit: MRc4 – Building Product Selection and Procurement (5 Points Possible)

Babcock-Davis has demonstrated achievement in two criteria areas for Aluminum Retrofit Roof Hatches:

- *Human Health:* A published, complete Health Product Declaration (HPD) is available for [Aluminum Retrofit Roof Hatches](#), with full disclosure of known hazards of all substances present at or above 1,000 ppm (0.1%) and Pre-Checked for LEED. [Score: 1]
- *Circular Economy:* Babcock-Davis Aluminum Retrofit Roof Hatches are constructed of approximately 75% Aluminum Alloy (40-80% pre-consumer recycled content; 10-30% post-consumer recycled content); and at least 12.5% Steel Alloy (default 25% post-consumer recycled content). [Score: Up to 1]
