RE: Sustainability Statement

Babcock-Davis certifies and provides the following information for use in achieving LEED v5 credit for specification of the following:

Product: Weighted Base Guardrail

Models: BGR-WB

Final Assembly Location: Minneapolis, MN

LEED v5 Credit Contributions

Category: Materials and Resources

Credit: MRC3 – Low-Emitting Materials (2 Points Possible)

Babcock-Davis Weighted Base Guardrail is constructed entirely of powder coated, plated or anodized metal, which LEED considers inherently non-emitting sources of VOCs.

Category: Materials and Resources

Credit: MRC4 – Building Product Selection and Procurement (5 Points Possible)

Babcock-Davis has demonstrated achievement in two criteria areas for Weighted Base Guardrail:

- *Human Health:* A published, complete Health Product Declaration (HPD) is available for [Weighted Base Guardrail](#), with full disclosure of known hazards of all substances present at or above 1,000 ppm (0.1%) and Pre-Checked for LEED. [Score: 1]
- *Circular Economy:* Babcock-Davis Weighted Base Guardrail is constructed of at least 98.5% Steel Alloy, which has a default 25% post-consumer recycled content. [Score: Up to 1]
