RE: Sustainability Statement

Babcock-Davis certifies and provides the following information for use in achieving LEED v5 credit for specification of the following:

Product: HVAC Access Doors

Models: BHVAC, BPAR

Final Assembly Location: Minneapolis, MN

LEED v5 Credit Contributions

Category: Materials and Resources

Credit: MRc3 – Low-Emitting Materials (2 Points Possible)

Babcock-Davis HVAC Access Doors are constructed of at least 95% powder coated, plated or anodized metal, which LEED considers inherently non-emitting sources of VOCs. The balance is fiberglass insulation, which has GREENGUARD Gold certification.

Category: Materials and Resources

Credit: MRc4 – Building Product Selection and Procurement (5 Points Possible)

Babcock-Davis has demonstrated achievement in two criteria areas for HVAC Access Doors:

- A published, complete Health Product Declaration (HPD) is available for [HVAC Access Doors](#), with full disclosure of known hazards of all substances present at or above 1,000 ppm (0.1%) and Pre-Checked for LEED. [Score: 1]
- *Circular Economy:* Babcock-Davis HVAC Access Doors are constructed of at least 92.5% Steel Alloy (default 25% post-consumer recycled content). [Score: Up to 1]
