RE: Sustainability Statement

Babcock-Davis certifies and provides the following information for use in achieving LEED v5 credit for specification of the following:

Product: Stainless Steel Floor Doors

Models: BFDRPS/BFDRPV, BFDEPS/BFDEPV, BFDDPS/BFDDPV, FDDHS/FDDHV

Final Assembly Location: Minneapolis, MN

LEED v5 Credit Contributions

Category: Materials and Resources

Credit: MRc3 – Low-Emitting Materials (2 Points Possible)

Babcock-Davis Stainless Steel Floor Doors are constructed of at least 99% powder coated, plated or anodized metal, which LEED considers inherently non-emitting sources of VOCs.

Category: Materials and Resources

Credit: MRc4 – Building Product Selection and Procurement (5 Points Possible)

Babcock-Davis has demonstrated achievement in two criteria areas for their Stainless Steel Floor Doors:

- *Human Health:* A published, complete Health Product Declaration (HPD) is available for Babcock-Davis [Stainless Steel Floor Doors](#), with full disclosure of known hazards of all substances present at or above 1,000 ppm (0.1%) and Pre-Checked for LEED. [Score: 1]
- *Circular Economy:* Babcock-Davis Stainless Steel Floor Doors are constructed of at least 96.5% Stainless Steel Alloy, with 84.4% (Type 304) to 95% (Type 316) total recycled content. [Score: Up to 1]
