RE: Sustainability Statement

Babcock-Davis certifies and provides the following information for use in achieving LEED v4 credit for the specification of Babcock-Davis Stair Treads and Nosings.

**Product** Ribbed Bar Abrasive Nosing, Full Abrasive Nosing, Inset Ribbed Bar Abrasive

Nosing, Inset Full Abrasive Nosing, Architectural Insert Full Abrasive Nosing, Two-part full abrasive Nosing, Two-part ribbed bar abrasive nosing and

Renovation Abrasive Nosing with standard black abrasive

Model(s) BSTSB, BSTSF, BSTSB-N, BSTSF-N, BSTTF, BSTTB, BSTRB

# **Manufacturing Info**

Final Assembly Location: Brooklyn Park, MN

Extraction point is not within 500 miles of manufacturing

# **LEED Credit Options:**

Product Disclosure and Optimization – Material Ingredients

- Option 1. Material Ingredient Reporting (1 point) Use at least 20 different permanently installed products from at least five different manufacturers that use any of the following programs to demonstrate the chemical inventory of the product to at least 0.1% (1000 ppm). (10 different permanently installed products from at least three different manufacturers for CS and Warehouses & Distribution Centers)
  - Health Product Declaration. The end use product has a published and complete Health Product Declaration with full disclosure of known hazards in compliance with the Health Product Declaration open Standard.

If you require any further information, please do not hesitate to contact us at (888) 312-3726.

Yes ○ No.

Yes ○ No

created via: HPDC Online Builder

HPD UNIQUE IDENTIFIER: 323459675136

CLASSIFICATION: 05 55 00 Metal Stair Treads and Nosings

PRODUCT DESCRIPTION: Steps and stairways are common to most buildings as a key element of circulation and movement of people through individual spaces and the entire building. They also serve as a means of egress in the event of fire or other emergencies and are regulated in great detail by building codes and standards. Anti-slip stair treads help prevent pedestrian slips and falls, limiting risk and liability. For commercial and institutional buildings with moderate to high levels of foot traffic, extruded aluminum stair treads and nosings are selected for both interior and exterior locations. The abrasive insert are ADA and OSHA compliant. This HPD covers Babcock-Davis's Ribbed Bar Abrasive Nosing (BSTSB), Full Abrasive Nosing (BSTSF), Inset Ribbed Bar Abrasive Nosing (BSTSB-N), Inset Full Abrasive Nosing (BSTSF-N), Two-part Full Abrasive Nosing (BSTTF), Two-part Ribbed Bar Abrasive nosing (BSTTB) and Renovation Abrasive Nosing (BSTRB) with standard abrasive. Additional abrasive color options are available; please contact manufacturer for more information.

# Section 1: Summary

**INVENTORY AND SCREENING NOTES:** 

This Health Product Declaration (HPD) was completed in accordance with the HPD Standard version 2.3, and discloses hazards associated with all substances present at or above 1000 parts per million (ppm) in the finished product, along with the role and percent weight.

\*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

# Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

### EXTRUDED ALUMINUM ALLOY

%: 70.0000 - 75.0000

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

MATERIAL TYPE: Metal

RESIDUALS AND IMPURITIES NOTES: No residuals or impurities are known or expected to be present at or above the Content Inventory Threshold indicated that have a GS score of BM-1, LT-1, LT-P1 or NoGS based on information provided in supplier disclosures and as predicted by process chemistry (Pharos CML).

# Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

### **VOC EMISSIONS**

### **CDPH Standard Method - Not tested**

CERTIFYING PARTY: Self-declared APPLICABLE FACILITIES: N/A

ISSUE DATE: 2023-03-28 **EXPIRY DATE:** 

CERTIFIER OR LAB: None

**CERTIFICATE URL:** 

**CERTIFICATION AND COMPLIANCE NOTES:** 

# Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

### REPAIR KIT

MANUFACTURER (OR GENERIC): Babcock-Davis

HPD URL: No HPD Available

ACCESSORY TYPE: Maintenance Product

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Used only for aesthetic repairs or small holes. Includes abrasive material and epoxy resin.

### **TAPED TOPS**

MANUFACTURER (OR GENERIC): Babcock-Davis

HPD URL: No HPD available

**ACCESSORY TYPE: Installation Accessory** 

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Provides protection of exposed surfaces during installation to prevent overspill from pouring concrete.

### **PROTECTIVE PAINT**

MANUFACTURER (OR GENERIC): Babcock-Davis

HPD URL: No HPD available

ACCESSORY TYPE: Installation Accessory

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Prevents a reaction between the undersides of the stair treads and concrete where they come into contact with each other.

# **MOUNTING HARDWARE**

MANUFACTURER (OR GENERIC): Babcock-Davis

HPD URL: No HPD available

**ACCESSORY TYPE: Installation Accessory** 

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Mounting options include: Cast-in Bolt; Drilled Holes, Mechanically

Fastened; Extruded Anchor; Wing Nut.

# Section 5: General Notes

The controlled manufacturing process includes a drying and hardening period, which allows for the chemicals to be cured and bound in the structure

### MANUFACTURER INFORMATION

MANUFACTURER: Babcock-Davis ADDRESS: 9300 73rd Ave N

Minneapolis Minnesota 44528, United States

WEBSITE: www.babcockdavis.com

CONTACT NAME: Sandy McWilliams **TITLE: Director, Business Development** 

PHONE: (888) 312-3726

EMAIL: smcwilliams@babcockdavis.com

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

**KEY** 

**Hazard Types** 

**AQU** Aquatic toxicity

**CAN** Cancer

**DEV** Developmental toxicity

**END** Endocrine activity

EYE Eye irritation/corrosivity **GEN** Gene mutation

**GLO** Global warming

**LAN** Land toxicity

MAM Mammalian/systemic/organ toxicity

**MUL** Multiple

**NEU** Neurotoxicity

NF Not found on Priority Hazard Lists

**OZO** Ozone depletion

PBT Persistent, bioaccumulative, and toxic

PHY Physical hazard (flammable or reactive)

**REP** Reproductive

**RES** Respiratory sensitization

SKI Skin sensitization/irritation/corrosivity

**UNK** Unknown

GreenScreen (GS)

BM-4 Benchmark 4 (prefer-safer chemical)

BM-3 Benchmark 3 (use but still opportunity for improvement)

BM-2 Benchmark 2 (use but search for safer substitutes)

BM-1 Benchmark 1 (avoid - chemical of high concern)

BM-U Benchmark Unspecified (due to insufficient data)

LT-P1 List Translator Possible 1 (Possible Benchmark-1)

LT-1 List Translator 1 (Likely Benchmark-1)

LT-UNK List Translator Benchmark Unknown

NoGS No GreenScreen.

GreenScreen Benchmark scores sometimes also carry subscripts, which provide more context for how the score was determined. These are DG (data gap), TP (transformation product), and CoHC (chemical of high concern). For more information, see 2.2.2.4 GreenScreen® for Safer Chemicals, www.greenscreenchemicals.org, and Best Practices for Hazard Screening on the HPDC website (hpd-collaborative.org).

**Recycled Types** 

PreC Pre-consumer recycled content

PostC Post-consumer recycled content

UNK Inclusion of recycled content is unknown

None Does not include recycled content

Other Terms:

GHS SDS Globally Harmonized System of Classification and Labeling of Chemicals Safety Data Sheet

**Inventory Methods:** 

Nested Method / Material Threshold Substances listed within each material per threshold indicated per material Nested Method / Product Threshold Substances listed within each material per threshold indicated per product

Basic Method / Product Threshold Substances listed individually per threshold indicated per product

Nano Composed of nano scale particles or nanotechnology

Third Party Verified Verification by independent certifier approved by HPDC

Preparer Third party preparer, if not self-prepared by manufacturer

Applicable facilities Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
